

**Directorate of Wheat Research  
Karnal**

**Instructions for nominating entries for NIVTs and IVTS**

1. It is mandatory to send the proposal in the Performa, preferably typed or neatly written.
2. Utmost care should be taken while giving the pedigree. Entries having any deviations from the pedigree given at the time of submitting the entries for IPPSN testing will not be considered.
3. The quotas allocated to various centres are tentative and DWR has the prerogative to change this, depending upon entries received from private sector/wild cards. Please enlist entries by order of merit as nomination of the entries will be made from Sr. No. 1 onwards, the last ones will be ignored from inclusion, if need arises.
4. Please check the IPPSN data before submission of proposal. In case of rusts, entries having ACI of more than 15.0/20.0 for irrigated/rainfed conditions will not be considered.
5. No material from other centre(s) should be proposed by any of the quota-holding centres.
6. The last date of submission of the proposal is 20<sup>th</sup> July, 2008. No proposal will be accepted after this date and the quota will be allocated to other centres. This is necessary as the finalized NIVTs are to be presented in the workshop.
